

Australasia's only genuine **PIR INSULATED GARAGE DOORS**

Proudly designed and manufactured in New Zealand

CAMBRIDGE

The Cambridge has a solid feel that suits a luxury home. The flat panel negative detail look, perfectly complements the contemporary home and gives a vivid impression of architectural sophistication.

MODENA

The Modena features a simple yet elegant 3 rib profile that adds a stylish touch to any home. The horizontal detail is inspired by the look of genuine timber cladding which gives the Modena a handsome crafted look. Just imagine the street appeal the Modena could add to your home!

GLOUCESTER

The Gloucester simulates the appearance of wide wooden boards and looks great on both traditionally styled homes and in modern environments. The Gloucester is often ordered with Conqueror's Simulated Timber Look* which looks just like a solid timber door, but without the ongoing cost and maintenance.

*SURCHARGE APPLIES FOR THIS FINISH

PIR THE INSULATION WITH NO EQUAL

Conqueror™ garage doors the only NZ manufactured door to use PIR thermal core technology. PIR is the most thermally efficient insulation product available. It's what makes your Conqueror™ door 50% more thermally efficient than other doors that use older generation insulation products like polystyrene (EPS). The difference is dramatic, you will feel it.

Conqueror insulated garage doors add living space to your home

By installing a Conqueror Insulated Garage door you're effectively increasing the usable space in your home by the size of your garage. Add some carpet and your garage is no longer a cold void but is transformed into a multi-use space ideal for hobbies or as an extra family room. As well as controlling the temperature in your garage, the excellent weather seals around the door significantly reduce cold drafts and dust. Other features you'll really appreciate are Conquerors famous whisper quiet operation and the industries best interior finish.

Features

PIR THERMAL CORE

Conqueror's unique PIR insulation core is the most thermally efficient insulation product available, being 50% more efficient than polystyrene (EPS). It also contains no harmful CFC's or HFC's.

PAINTED INTERIOR FINISH

Off-white satin semi-gloss paint finish. This is a primer finish which can be repainted by the homeowner, but is good looking enough to be left as the final finish.

POWDER-COATED HARDWARE

All Conquerors insulated door hardware including tracks, hinges and fixings are finished in a hard wearing powder coated paint finish. Not only do they look great - they're much easier to keep clean than traditional raw metal finishes.

WHISPER QUIET

To build a silky smooth and quietly operating door Conqueror has developed patented nylon-bushed hinges and metal-free roller carriers.

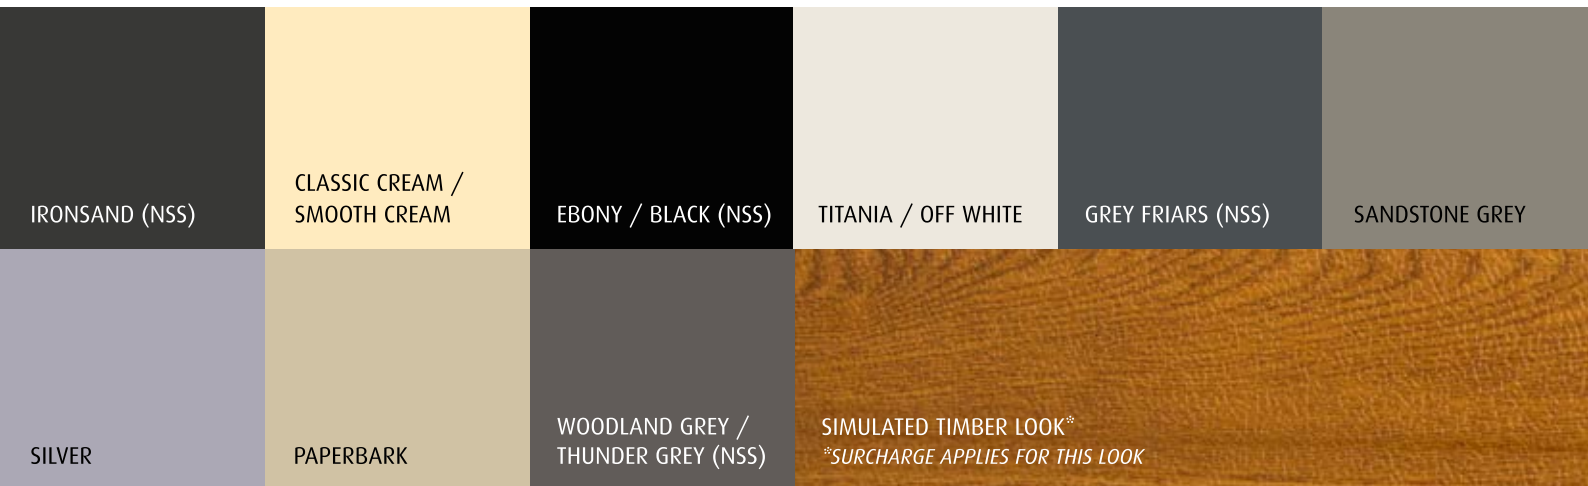

SIZES AVAILABLE

Daylight opening height: 1900-2650mm x Width: 1900-5400mm.

Colour Palette*

IMPORTANT INFORMATION WHEN CHOOSING YOUR GARAGE DOOR COLOUR. The colour swatches shown here are indicative only and are as close as the printing process allows. Before ordering please refer to your Conqueror™ agent's colour chart. Dark colours (indicated NSS) can be subject to thermal bowing in peak sunshine hours.

*All colours subject to availability.
